Career Objective

Aspiring **Artificial Intelligence and Data Science Engineer** currently pursuing a Bachelor's degree with a strong foundation in **programming, full-stack web development**. Skilled in **JavaScript, Python, MERN stack, and database technologies**. Passionate about building scalable applications, solving real-world problems using data and AI, and continuously learning emerging technologies while contributing effectively to organizational growth.

Education

B.E. Artificial Intelligence and Data Science (Pursuing)

Amrutvahini College of Engineering, Sangamner

Affiliated to Savitribai Phule Pune University

Expected Graduation: **2028**

Diploma in Computer Engineering

Mahavir Polytechnic, Nashik | MSBTE

Year of Passing: **2025**

Percentage: **89.56%**

SSC (Secondary School Certificate)

Pandit Jawaharlal Nehru School | MSBSHSE

Year of Passing: **2022**

Percentage: **87.20%**

Technical Skills

Programming Languages

Java, JavaScript, Python, C++, PHP, C

Web Development

HTML, CSS, JavaScript, React.js, Node.js, Express.js, Bootstrap

Database Technologies

MySQL, MongoDB

Tools & Platforms

GitHub, Android Studio, XAMPP, Vercel, Postman

Artificial Intelligence & Data Science (Basic Knowledge)

Python for Data Science(Learning)

NumPy, Pandas (Learning)

Internship Experience

Full Stack Web Development Intern

Sumago Center of Practical Excellence (SCOPE) / Sumago Infotech Pvt. Ltd., Nashik

Duration: **03 June 2024 – 13 July 2024**

Responsibilities:

- Developed responsive web applications using **HTML, CSS, JavaScript, and React.js**
- Implemented backend functionality using **Node.js and Express.js**
- Integrated **MongoDB database for data storage**
- Used **GitHub for version control and project collaboration**
- Gained practical experience in **MERN stack development**

Academic Project

Smart Dam Monitoring System (IoT Based)

Developed an **IoT-based monitoring system** to track water levels and automate dam gate operations for improved safety and efficiency.

Key Features:

- Used **ESP32 microcontroller** for real-time monitoring
- Integrated **water level sensors** for data collection
- Automated **dam gate control using servo motor**
- Implemented **buzzer alerts for emergency warning**
- Enabled **remote monitoring through IoT cloud platform**

Technologies Used:

ESP32, IoT Cloud, Sensors, Servo Motor, Buzzer

Achievement:

Reduced manual intervention and improved monitoring efficiency using IoT automation.

Certifications

Internship Completion Certificate

Issued by: Sumago Infotech Pvt. Ltd., Nashik

Date: **13 July 2024**

Completed training in **Full Stack Web Development**

Project Excellence Certificate

Issued by: Sumago Infotech Pvt. Ltd., Nashik

Recognized for **outstanding project development and innovation**

IoT Innovators: Building Smart Solutions Workshop

Organized by: Computer Department

Date: **23 January 2025**

Research Paper Publication – IJSREM Journal

Published in: International Journal of Scientific Research in Engineering and Management

Date: **2 February 2025**

Achievements

- Received **Project Excellence Award** from Sumago Infotech Pvt. Ltd.
- Successfully completed **Full Stack Web Development Internship (MERN Stack)**
- Published **research paper in IJSREM Journal**
- Developed **IoT-based Smart Dam Monitoring System**

Soft Skills

Problem Solving

Team Collaboration

Time Management

Adaptability

Attention to Detail

Basic Communication Skills

Interests

Artificial Intelligence

Web Development

Learning New Programming Technologies
